Micuna cares for your baby's sleep

We offer safe and environmentally friendly products, so you can create a space for your baby that is full of love.

As a Spanish family business, for more than 50 years we've devoted our lives to the design and creation of bedrooms, high chairs and furniture for the youngest arrivals in your home.

We are located next to the Albufera Natural Park in Valencia, and from here, our products have crossed borders into more than 35 countries, thanks to their design and high quality.

We dream of making the planet better for the future, so all our products are made with wood from sustainable forests, finished with water-based paint and are evolutionary, multifunctional and environmentally friendly.

Quality, safety, natural designs and evolutionary products that take care of your baby and the planet

About our products...

At Micuna, the wood for our products is selected from sustainable forests, with water-based finishes, free of toxins and harmful substances.

Our products are designed and manufactured at our facilities in Valencia (Spain) under the premises of ECO-DESIGN.

Safety and regulations

At **Micuna**, we always look after the safety and well-being of your baby, updating all our products to **current regulations** and carrying out exhaustive quality controls to ensure that they are complied with.

All our products are manufactured using the best, strongest and most durable materials, with finishes that are suitable for younger children.

We know that the first few months are the most important, so we have developed our own co-sleeping system for our cradles, endorsed by the latest regulations published in 2022.

To guarantee the safety of children, Micuna includes locking systems on both our movable side panels and our wheels.

Cradle Mattresses

This mattress has a core of HR Aquapur®, which, thanks to its open cells, facilitates air circulation inside the mattress, making it very breathable, and also adapts to the baby's body with a layer of Innogel® memory foam on each side, relieving pressures.

Contains a high number of high-density gel particles that delay heat absorption, creating an environment of optimal rest for the baby.

Discover the new Simona folding cot by Micuna, the perfect balance between functionality, design and quality. Available in two stylish finishes, white and wood, this cot is ideal to suit any space and style.

Thanks to its innovative folding system, this Cot is reduced to a very compact size, making it the perfect choice for nurseries looking to optimise space, hotels that want to offer comfort to families without sacrificing design, second homes where versatility is key and grandparents' homes, so that it does not take up unnecessary space when not in use.

Articulated core mattresses
compatible with Micuna Relax System®

At Micuna, we research and analyse the **global recommendations for babies' sleep** and apply them to our products, guaranteeing rest and safety.

All the mattresses have anti-mite treatment. Made in Spain.

High-tech thermosensitive memory foam material. Moulds to the shape of the body under the influence of body temperature. Relieves pressure in risk areas (shoulders, hips and heels). Hypo-allergenic, breathable product.

Articulated core mattress

The inclination improves breathing, reduces the pressure of the head on the mattress, reduces the possibility of positional plagiocephaly, promotes digestion and reduces regurgitation. This system avoids dangerous situations such as the mask effect and reduces CO2 re-breathing.

CH-1740 R&R basic (117x57x10cm)
CH-1741 R&R basic (137x67x10cm)

1. **Interior detail**
PAD core, high density polyurethane.

2. **Articulated core 25D**

3. **Safe&Clean fabric**

4. **STRECH fabric.** The upper side of the mattress is made of technical fabric that allows 60% breathability, preventing moisture from condensing.

5. **Anti-tipper and Semi-roller** (Only the semi-roller has removable covers)

Profile HR Mattress

CH-2022 R&R basic (117x57x12cm)
**CH-2023 R&R basic** (137x67x12cm)

This mattress is an excellent choice thanks to the profiled HR core, which adapts to the baby's body and head, making it ergonomically perfect. They make this mattress an ideal support for use from birth.

Composition
Core
10cm HR AIRPLUS® (profiled on one side) D-25Kg
Inner core protection mesh 110gr. 100% polyester

Non-articulated mattresses

Memory Foam Mattress

CH-2015 (88x68x12 cm)

CH-1293 (116x57x12 cm) Cot 120 x 60
**CH-1294** (137x67x12 cm) Cot 140 x 70

This memory foam mattress has a core composed of HR Aquapur®, which due to its open cells facilitates the circulation of air inside the mattress, making it very breathable, and a layer of visco Innogel® on each side, which adapts to the baby's body, relieving pressure.
Contains a high number of high-density gel particles that delay heat absorption, creating an environment of optimal rest for the baby.

Visco Innogel® 1
Inner core drilling 2
HR Aquapur®
Visco Innogel® 1
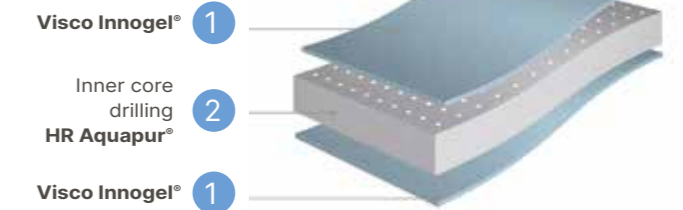

Spring Mattress

This mattress stands out for being highly breathable. Its Bonell spring core allows air circulation, preventing the accumulation of CO2 pockets. It is perfect for babies who tend to sweat at bedtime or live in areas of high humidity. It also has a safety frame that keeps the baby in the centre of the mattress.

CH-660 (116x57x14 cm) Cot 120 x 60

HR Aquapur® 1
Perimeter frame period 2
Bonell inner core spring 3
HR Aquapur® 1
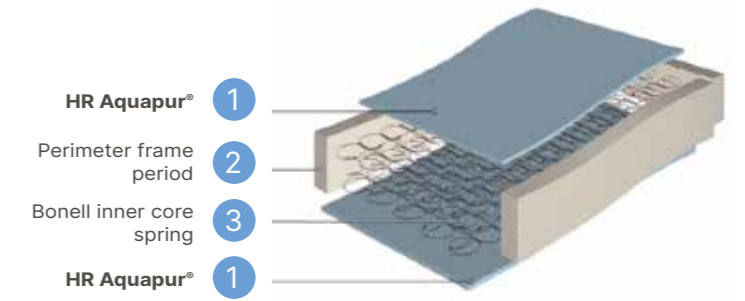

Foam Mattress

The foam mattress has an HR Aquapur® core, which has thousands of micro-pores that favour the circulation of air inside the mattress, guaranteeing extraordinary climatic regulation and unique comfort while preventing the accumulation of moisture.

Co-Sleeping Kit

Twin Kit

Sleep next to your baby

The co-sleeping kit allows you to sleep peacefully close to your baby whenever you want. It includes fastening straps, adjustment stops, upholstered mattress and base for joining the bed to the cot.

The twin accessory is perfect for joining two cots, whether they are the same or different models, with an easy, simple, safe system. This accessory is ideal to keep our babies sleeping together after birth. The kit also includes a beautiful photo frame, shaped like the little bag the stork carries babies in, which you can personalise with a family photo.

CO-SLEEPING KIT WITH BRIDGE CP-2007

Relax Kit

Desk Kit

## Discover all the benefits of Relax System

The inclination improves breathing, reduces the pressure of the head on the mattress, reduces the possibility of positional plagiocephaly, promotes digestion and reduces regurgitation. This system provides the baby with the safest position: sleeping on the back, avoids dangerous situations such as the mask effect and reduces CO_2 re-inhalation.

It is complemented with an articulated mattress for two slat bed base inclinations: 7° and 10°. (Page. 80.)

PATENTED PATENTED PATENTED

We research the **World Recommendations** on baby sleep, apply them to our products and guarantee rest and safety.

Check in the **Other** cot **accessories** section that your model is compatible with this accessory.

✔
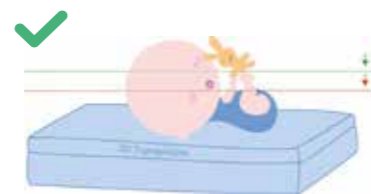

FACE UP Position
Position that reduces the sudden infant death syndrome.
Position that reduces CO_2 re-breathing.

✔

RELAX SYSTEM position
For less CO_2 re-breathing we should place our baby at an inclined angle.
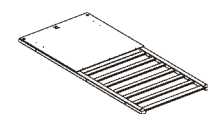

✕

FACE DOWN position
The WHO recommends the prone position for the safe and pleasant sleep of the baby.
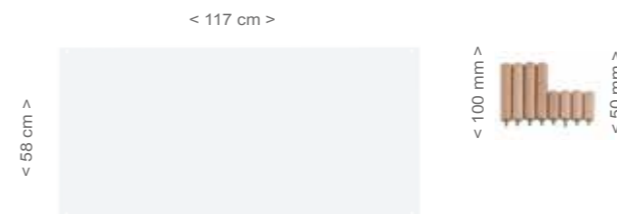

✕

SIDE-STAND Position
Sleeping on the back reduces the mask effect, whereby a soft or cushioned material can cover the baby's face and impede breathing.

·········· AIR O2
·········· Higher CO2 concentration

Micussori

The Micuna Montessori family

Micussori Mirror

Children's mirror with wooden frame in white and learning bar in Wood. The bar has three heights to adapt to the baby's height, can be removed and turns into a full-length mirror. The surface is made of safety methacrylate with a mirror effect. Includes wall fastening system.

👍 With the help of the bar and the mirror they learn to walk more decisively

COLOUR

| MICUSSORI MIRROR MONT-1922	Material	Colour	Optional	Including
< 65 cm > < 110 cm > < 9 cm >	Melamine board Beech	White - Wood	Montessori pedagogy safety mirror with 2 mounting positions (horizontal and vertical) and adjustable bar in 3 heights. Bar heights: 24.5 cm / 31.5 cm / 38.5 cm	Includes wall fastening

Micussori

Cot barrier

The Micussori line's safety barrier fits most Micuna 120x60 cm cots. With rounded edges to prevent scratches, it is the perfect accessory for when your baby is learning to climb down. and climb out of the cot on his own.

It is also compatible with the Cot Big Martha, and Big Trevi 140x70*. With the Bed Swing, Big Martha in bed version*.

👍 Encourages young children to get in and out of bed on their own

Consult compatible models* Cots 120 x 60: Place at the lowest height of the bed base and without wheels Cots 140 x 70 and small bed: Set at the lowest height of the bed base *Models compatible with 140 x 70 cots: Big Martha and Big Trevi Compatible models bed 140 x 70: Big Martha and Bed Swing

Trotta

Micussori

Seat

Trotta is also a seat, when the upper step is placed in its backrest position.

Learning

Its side panels contain a fun game, allowing the child to discover letters, numbers and basic geometric shapes, tracing them with the tracing ball. This system will allow your child to have their first experience of writing and drawing at their own pace of learning.

Ladder

In the first position, Trotta is a three-step ladder, perfect for the smallest adventurers. The bottom step can be folded inwards, for when the child does not need it and to save space in the home.

Evolving

The second position is designed to support the child as they grow. Thanks to Trotta's innovative guide system, the functionality can be changed with very simple and intuitive movements, without needing any tools. By simply sliding it, the upper step becomes a hidden step, reducing the height of the lift.

Nursing
rocking chairs

Collection of rocking chairs with refined lines
and soft-touch fabric, easy to clean and
ergonomically designed

Mar

acualine
Stain repellent

The **Mar** rocking chair offers ample comfort and convenience for both resting and feeding.
Its rotating foot allows you to pick up objects close to you without having to stand up. It does not need a rocker, as it has a **pendulum system** with which you can swing and rock your baby.

Slow System

Pregnancy and the first months of your baby's life is a unique period, a period in which it is very important to take care of yourself and rest. Now you can order any of our nursing rocking chairs with the SLOW SYSTEM, a system that allows you to rest in three comfortable positions. Elevating your feet promotes circulation and helps eliminate swelling during pregnancy.
